A presentation was made from the Florida Turnpike Enterprise, Lake County and Lake-Sumter County MPO to Council and residents regarding the proposed widening projects along the Turnpike.

**Representatives Present were:**

Jennifer Stults, AICP, Intermodal Systems Development (ISD) Administrator for Florida's Turnpike Enterprise.

*(Design manager of the Turnpike widening from SR 50 to the Minneola Interchange.)*

T J Fish, Executive Director, Lake-Sumter Metropolitan Planning Organization

The plan is to widen the Turnpike to eight lanes from exit 272 at Clermont all the way to I-75. Part of this plan affects a six mile stretch up to the new Minneola interchange and has four bridges that will need to be widened; in particular the bridge on CR 455 between Old SR 50 (Collina Bay) and Publix.

There are three distinct options as to how this can be achieved with the timeframe and varying effects on local traffic during construction. Although the project is not scheduled to start until 2021, it is in the planning stage now. The input, cares, concerns, ideas and preferences from Council and residents were welcomed and should be emailed directly to the FDOT. The email addresses are printed on page 1 of the presentation which is able to be viewed and downloaded from the website.

Following the presentation the meeting closed at 7:58 pm

Respectfully submitted,
