**NEW BUSINESS**

Considering the rapid growth of Lake County we are planning on discussing the ramifications of this growth as it relates to Montverde and the safety of its residents. The topics to be discussed are as follows:

1. Is the town being adequately patrolled based on the crime statistics?
2. Should the Town of Montverde alter the hours covered by law enforcement to provide a more comprehensive and varied approach for our residents?
3. Should we have a law enforcement presence for the residents of Montverde on the weekends and evenings? If so, how do we accomplish this within the confines of the Town of Montverde's budgetary limits?
