Town Manager FY 2023 Budget Message

To: Honorable Mayor, Town Council Members, and Citizens of Montverde

As your Town Manager, I am pleased to present a balanced budget for Fiscal Year 2022-2023 (FY 2023) prepared in compliance with the Town Charter. It is through the consciousness of our Town Council and the dedication of our talented town staff that we can provide the exceptional level of service that our citizens have come to expect.

The FY 2023 budget continues to invest heavily into top Council priorities adopted in Montverde's Strategic Plan, 5-Year Capital Plan, and through workshop planning. The town's uppermost issues are focused on improving small town quality of life and exceptional infrastructure to serve our citizens.

The total FY 2023 general budget of \$1,841,993 represents an 17.2% increase (\$271,478) over last year's adopted budget. The town's millage rate will remain at 2.8300 mills, which is one of lowest municipal ad-valorem in the State of Florida. Town staff has continued to find efficiencies in process, thereby keeping human capital to minimum levels. However, Council and management has recognized the need to be competitive with salaries to retain quality employees and minimize costly turnover.

The FY 2023 budget will also see a substantial increase in revenue for capital projects. This is a direct result of funds town management has been able to secure through local grants, state grants, impact fees, federal grants, and money received from development agreements. These funds will be leveraged with other funds and programs to maximize capital projects.

This year Town Council reviewed and affirmed the Strategic Plan. This plan will serve as a roadmap for the town's success over the next five years. It will also serve as a tool to communicate Montverde's intentions to the community, focus the direction of its financial resources and employees, and ensure that short-term goals are met in a timely fashion. This plan defines specific results that are to be achieved, outlines a course of action for achieving them, and details measurements to ensure the outcome of those results. Additionally, this plan will ensure that the most important town priorities are identified, communicated, and achieved so that all may know what is expected and how to achieve success. The town will be diligent in focusing its efforts on strategic objectives that it can control and influence within the scope of its mission and vision.

The Town Council updated the Capital Improvement Plan this past year. The Capital Improvement Program (CIP) concentrates on the development of a long-range framework, in which physical projects may be concurrently planned and implemented, while taking into consideration the town's financial capabilities. The comprehensive program is prepared for the ensuing five years and based upon the requirements of the community. It encompasses all types of public improvements. The CIP is an adaptable plan used for guidance in the budget development process. The primary purpose of the Capital Improvement Program includes: the development of a long-range framework in which physical projects are planned, evaluated, and presented in an ordered sequence; the coordination of the capital-related projects of town departments to ensure equitable distributions of projects with regard to the needs of the community, the timing of related projects, and the fiscal ability of the town to undertake the projects; the assistance of town staff and Town Council members in the determination of project requests and funding with short and long-range plans; and the provision of information regarding planned capital projects to the residents of the Town of Montverde.

I would like to express my appreciation to my staff who assisted and contributed in the preparation of this budget. I would also like to thank the Mayor and Town Council for their unfailing support, for maintaining the highest standards of professionalism in the management of the Town of Montverde's finances, and for their attention in conducting the financial operations of the town in a responsible manner.

Respectively Submitted,

Paul Larino

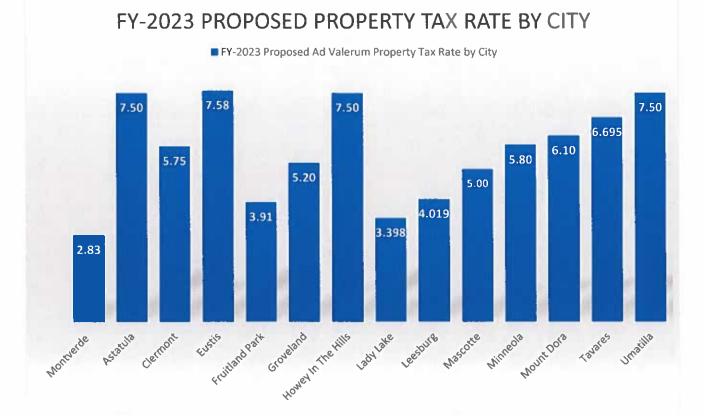

Paul Larino Town Manager

Budget Overview: General Budget

The General Budget is supported by a variety of revenue sources. These include the following classifications:

- Taxes: Ad Valorem, Utility, and Occupational
- Permits and Fees: Building, and Development
- Intragovernmental Fees: State Revenue Sharing, ½ Cent Sales Tax, and Interlocal Revenue
- Charges for Service: Developer Fees, Special Event Revenue, and misc. State Tax
- Judgements and Fines: Code Compliance and Library Fines
- Miscellaneous Revenues: Interest and Facility Rental

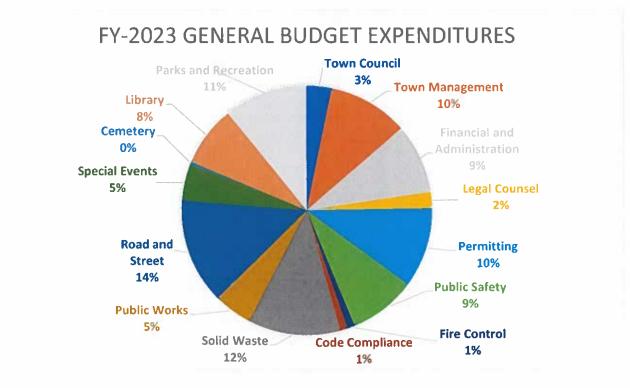

Town Council and management work diligently to keep property taxes low and maintain a level of service our residents have come to expect from our town. This below average property taxation does create difficulty budgeting funds for large improvement items such as road resurfacing and sidewalks, however it allows for a more affordable cost of living for the town residents. Town management is working earnestly to identify alternative funds, utilize grants, and other creative measures to keep property taxes below the average of other communities in Lake County.

General Budget expenditures are divided among several funds each supporting various functions of Montverde's municipal governmental operations. The funds include the following categories:

٠	Town Council	\$ 60,350
٠	Town Management	\$190,262
	Finance and Administration	\$166,420
٠	Legal Counsel	\$ 38,500
	Permitting	
	Public Safety	\$160,650
•	Fire Control	\$ 17,000
	Code Compliance	
	Solid Waste	\$220,000
	Public Works	\$ 90,864
	Road and Street	
	Special Events	\$ 86,520
	Cemetery	\$ 7,430
	Library	\$144,403
	Parks and Recreation	\$198,513

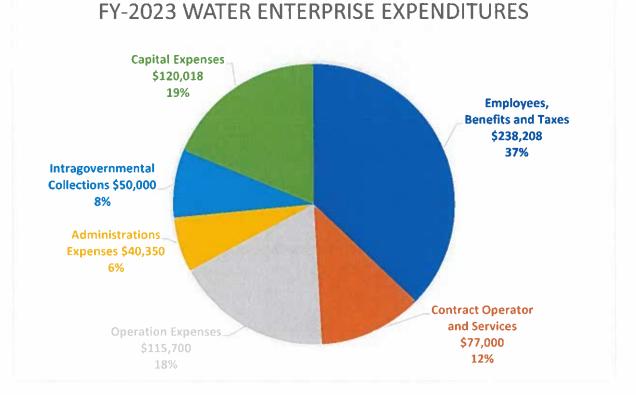

The FY 2023 General Budget of \$1,841,993 represents an 17.2% increase over the FY 2022 General Budget. A large percentage of the increase is from activities created by new development, however these fees are recovered through cost reimbursement agreements. The town also increased funds to the Public Works Department, Parks and Recreations, and Community Events.

Budget Overview: Utilities (Water Enterprise)

The Town of Montverde operates a potable water system that provides quality drinking water to the town residents. The water fund is set up as an Enterprise Fund. "Enterprise fund" means a separate fund to account for the operation of services by a local government, established and maintained in accordance with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board. In other words, it is set up similar to a business whereby fees for the service are charged to the customers based on operational and capital expenses incurred. The town does not transfer funds from the Water Enterprise to the General Budget. The revenue collected from customers stays in the Water Enterprise Fund.

The FY 2023 Budget for the water enterprise is \$641,276. Nearly all the revenues for the budget are derived from user fees charged to customer who utilize the service.

Budget Overview: Capital Project Budget

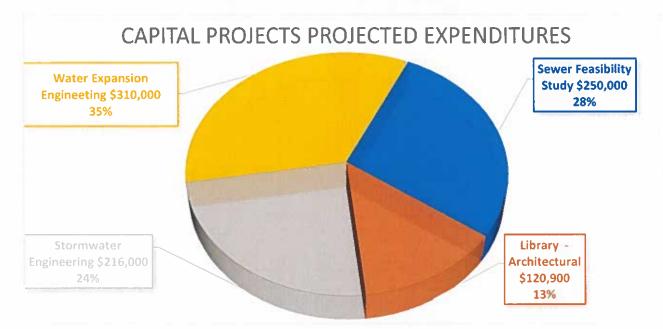

A Capital Project is a project that helps maintain or improve a town's assets, often called infrastructure.

To be included in the Capital Budget, a project must meet ONE of the following requirements (criteria):

- It is a new construction, expansion, renovation, or replacement project for an existing facility or facilities.
- The project must have a total cost of at least \$10,000 over its life.
- Project costs can include the cost of land, engineering, architectural planning, and contract services needed to complete the project.
- A purchase of major equipment (assets) costing \$50,000 or more with a useful life of at least 10 years.
- It is a major maintenance or rehabilitation project for existing facilities with a cost of \$10,000 or more and an economic life of at least 10 years.

Funding from capital projects can come from a variety of sources. These can include general funds or enterprise funds (if used for a capital project as a part of the enterprise). However, generally many of these projects receive most of the funds from grants, leases, loans, and intragovernmental cost sharing programs. Funds received from these sources are classified as dedicated funds or non-discretionary funds. Dedicated funds or non-discretionary funds include grants and donations, contract revenues, revenues from services, and other revenues specifically dedicated for a particular purpose. In other words, these funds must be used for the dedicated purpose for which they were received.

Town management will work with the Town Council to review each capital project in detail before the funds are spent on the project. The projected non-discretionary revenue funds are as follows:

Budget Calendar:

TOWN OF MONTVERDE Budget Calendar Fiscal Year 2022-2023				
2022 Date and Day	Responsible Party	Required Activity	Requirement Reference	
Beginning April 26 thru May 21 Monday-Thursday	Town Manager	Department directors meet to discuss fiscal year 2022-2023 budget requests, including goals and tasks
