

NOTICE REGARDING EXTRACTION OF PORTIONS OF THE BIDDING DOCUMENTS AND DRAWINGS

Official Bidding Documents and Drawings are secured digitally in accordance with State P.E. regulations and the Engineer's policies and procedures. It is understood that potential Bidders and other users may need to extract portions of the Bidding Documents and Drawings for preparation of Bids and for coordination with Subcontractors and Suppliers. Rather than using an "extract" feature, portions of the Bidding Documents and Drawings (ranges of pages) may be printed to separate PDF files using Adobe or "Microsoft Print to PDF".

NOTE: The Official Bidding Documents and Drawings are provided for the purpose of bidding only. Separate portions and pages printed separately are used at your sole risk, which may not be altered or modified, and the Official Bidding Documents and Drawings shall take precedence. The Engineer and Owner will not be responsible for electronic printing/conversion or distribution to or use of these files by parties not registered.
