Steel perforated diffuser with face mounted deflectors

Titus perforated ceiling diffusers are designed for both heating and cooling applications. A tight, uniform, horizontal blanket of air protects the ceiling against smudging. Discharge pattern is easily adjusted by unlatching and dropping the perforated face, then rotating the pattern controllers.

FEATURES AND BENEFITS

- Designed for both heating and cooling applications
- A tight, uniform, horizontal blanket of air protects the ceiling against smudging
- Discharge pattern can be adjusted to vertical as well as to one-, two-, three- or four-way horizontal
- Fire rated option not available on quick ship
