Budget Message From the Town Manager

To: Honorable Mayor, Town Council Members, and Citizens of Montverde

As your Town Manager, I am pleased to present a balanced budget for Fiscal Year 2021-2022 (FY 2022) prepared in compliance with the Town Charter. It is through the vision of our Town Council and the dedication of our talented town staff that we can provide the exceptional level of service that our citizens have come to expect.

The FY 2022 budget continues to invest heavily into top Council priorities adopted in Montverde's Strategic Plan. The town's uppermost issues are related to small town quality of life and infrastructure.

The total FY 2022 general budget of \$1,570,515 represents an 11% increase (\$174,745) over last year's adopted budget. The town's millage rate is remaining steady at 2.8300 mills. Town staff has continued to find efficiencies in process, thereby keeping human capital to minimum levels. However, Council and management must recognize the need to be competitive with salaries to retain quality employees and minimize costly turnover.

The FY 2022 budget will also see a substantial increase in revenue for capital projects. This is a direct result of funds town management has been able to obtain through local grants, state grants, impact fees, federal grants, and money received from development agreements. The most significant amounts include an expected \$853,000 in American Rescue Plan funds, \$472,000 in county library impact fees, and \$250,000 in water impact fees from developers. These funds will be leveraged with other funds and programs to maximize capital projects.

Throughout 2021, the town has had to rapidly evolve how we conduct business to safely serve our residents, businesses, and visitors during the COVID-19 pandemic. To safely sustain operations, many new technology projects and safety protocols will continue to be implemented well into FY 2022. All this is being accomplished with no additional personnel positions.

This year Town Council completed a 5-year Strategic Plan. This plan will serve as a roadmap for the town's success over the next five years. It will also serve as a tool to communicate Montverde's intentions to the community, focus the direction of its financial resources and employees, and ensure that short-term goals are met in a timely fashion. This plan defines specific results that are to be achieved, outlines a course of action for achieving them, and details measurements to ensure the outcome of those results. Additionally, this plan will ensure that the most important town priorities are identified, communicated, and achieved so that all may know what is expected and how to achieve success. The town will be diligent in focusing its efforts on strategic objectives that it can control and influence within the scope of its mission and vision. The implementation of this plan and the decision making around it, will align with town values.

The Town Council also completed a Capital Improvement Plan this past year. The Capital Improvement Program (CIP) concentrates on the development of a long-range framework, in which physical projects may be concurrently planned and implemented, while taking into consideration the town's financial capabilities. The comprehensive program is prepared for the ensuing five years and

based upon the requirements of the community. It encompasses all types of public improvements. The CIP is an adaptable plan used for guidance in the budget development process. The primary purpose of the Capital Improvement Program includes: the development of a long-range framework in which physical projects are planned, evaluated, and presented in an ordered sequence; the coordination of the capital-related projects of town departments to ensure equitable distributions of projects with regard to the needs of the community, the timing of related projects, and the fiscal ability of the town to undertake the projects; the assistance of town staff and Town Council members in the determination of project requests and funding with short and long-range plans; and the provision of information regarding planned capital projects to the residents of the Town of Montverde.

I would like to express my appreciation to all department directors who assisted and contributed to the preparation of this budget. I would also like to thank the Mayor and Town Council for their unfailing support, for maintaining the highest standards of professionalism in the management of the Town of Montverde's finances, and for their attention in conducting the financial operations of the town in a responsible and progressive manner.

Respectively Submitted,

Paul Larino

Paul Larino Town Manager

Budget Overview: General Budget

The General Budget is supported by a variety of revenue sources. These include the following classifications:

- Taxes: Ad Valorem, Utility, and Occupational
- Permits and Fees: Building, Development, and Fire Assessments
- Intragovernmental Fees: State Revenue Sharing, ½ Cent Sales Tax, and Interlocal Revenue
- Charges for Service: Developer Fees, Special Event Revenue, and misc. State Tax
- Judgements and Fines: Code Compliance and Library Fines
- Miscellaneous Revenues: Interest and Facility Rental

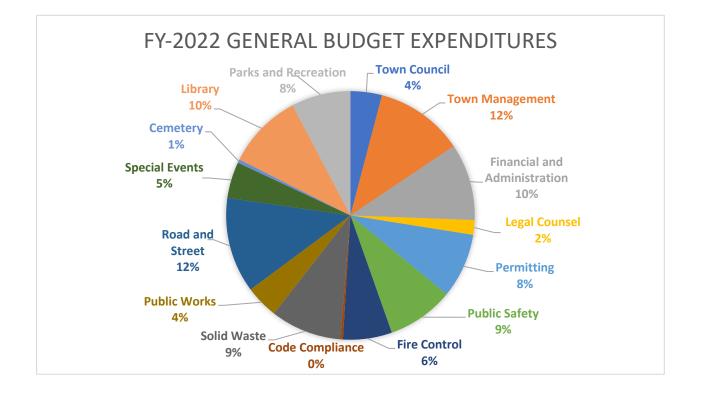

Town Council and management work diligently to keep property taxes low and maintain a level of service our residents have come to expect from our town. This below average property taxation does create difficulty budgeting funds for large improvement items such as road resurfacing and sidewalks, however it allows for a more affordable cost of living for the town residents. Town management is working earnestly to identify alternative funds, utilize grants, and other creative measures to keep property taxes below the average of other communities in Lake County.

General Budget expenditures are divided among several funds each supporting various functions of Montverde's municipal governmental operations. The funds include the following categories:

| • | Town Council | \$ 64,250 |
|---|----------------------------|-----------|
| ٠ | Town Management | \$180,783 |
| • | Finance and Administration | \$156,961 |
| • | Legal Counsel | \$ 30,000 |
| • | Permitting | \$132,062 |
| • | Public Safety | \$136,390 |
| • | Fire Control | \$100,000 |
| • | Code Compliance | \$ 5,350 |
| • | Solid Waste | \$145,000 |
| • | Public Works | \$ 67,626 |
| • | Road and Street | \$194,892 |
| • | Special Events | \$ 74,147 |
| • | Cemetery | \$ 7,000 |
| • | Library | \$154,912 |
| • | Parks and Recreation | \$121,142 |
| | | |

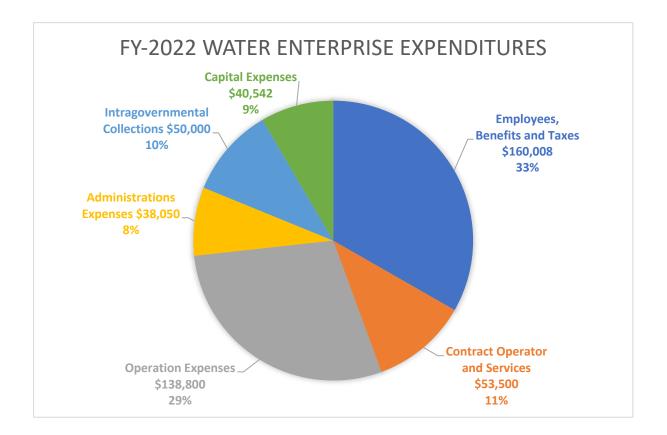

The FY 2022 General Budget of \$1,570,515 represents an 11% increase over the FY 2021 General Budget. A large percentage of the increase is from activities created by new development, however these fees are recovered through cost reimbursement agreements. The town also increased funds to the Public Works Department, Parks and Recreations, and Community Events.

Budget Overview: Utilities (Water Enterprise)

The Town of Montverde operates a potable water system that provides quality drinking water to the town residents. The water fund is set up as an Enterprise Fund. "Enterprise fund" means a separate fund to account for the operation of services by a local government, established and maintained in accordance with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board. In other words, it is set up similar to a business whereby fees for the service are charged to the customers based on operational and capital expenses incurred. The town does not transfer funds from the Water Enterprise to the General Budget. The revenue collected from customers stays in the Water Enterprise Fund.

The FY 2022 Budget for the water enterprise is \$480,900. Nearly all the revenues for the budget are derived from user fees charged to customer who utilize the service.

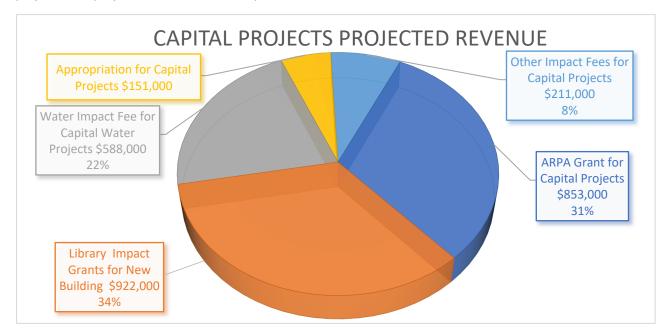

Budget Overview: Capital Project Budget

A Capital Project is a project that helps maintain or improve a town's assets, often called infrastructure. To be included in the Capital Budget, a project must meet ONE of the following requirements (criteria):

- It is a new construction, expansion, renovation, or replacement project for an existing facility or facilities.
- The project must have a total cost of at least \$10,000 over it's life.
- Project costs can include the cost of land, engineering, architectural planning, and contract services needed to complete the project.
- A purchase of major equipment (assets) costing \$50,000 or more with a useful life of at least 10 years.
- It is a major maintenance or rehabilitation project for existing facilities with a cost of \$10,000 or more and an economic life of at least 10 years.

Funding from capital projects can come from a variety of sources. These can include general funds or enterprise funds (if used for a capital project as a part of the enterprise). However, generally many of these projects receive most of the funds from grants, leases, loans, and intragovernmental cost sharing programs. Funds received from these sources are classified as dedicated funds or non-discretionary funds. Dedicated funds or non-discretionary funds include grants and donations, contract revenues, revenues from services, and other revenues specifically dedicated for a particular purpose. In other words, these funds must be used for the dedicated purpose for which they were received.

Management expects to receive and therefore has budgeted approximately \$2,137,000 in nondiscretionary funds. The revenue is programmed in the budget for the FY 2022, however at this time we have not budgeted any of the expenditures to be included in the initial budget. Town management will work with the Town Council to review each capital project in detail before the funds are allocated to the project. The projected non-discretionary revenue funds are as follows:
